# Model T 100 Watt all tube guitar amplifier and 412 Enclosure

## Model T Guitar Amplifier:

100 Watt all tube guitar amplifier. Two-channel operation with separate EQs, volume, treble, mid and bass on the clean side; gain, volume, treble, mid and bass on the high gain channel. Presence control and standby switch round out the front panel. Comprehensive tube driven EFX Loop featuring separate send and return levels for the clean and drive channels. "Arena/Club" switch reduces power from 100 Watts to 25 Watts. Innovative "Tube Pairing" circuit takes failed output tubes out of the circuit, and keeps the amp running.

Specs: 100 Watt tube head, two-channel, 4, 8 or 16 Ohm load switch, 100W/25W operation, EFX Loop with separate send and return levels for both channels, balanced line out. Weight 75 lbs. Size 11" H x 26" W x 16" D.

## Model T 412 Enclosure:

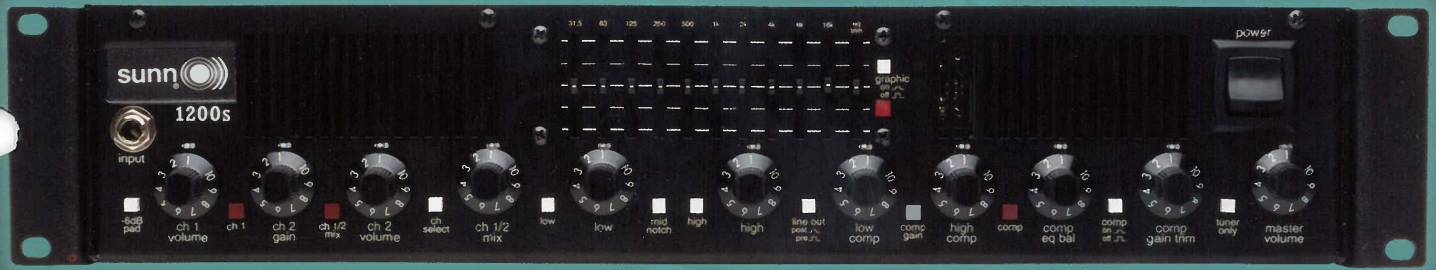

The perfect mate for the Model T Head, this Celestion®-loaded 4 x 12" is voiced to deliver massive volume and killer tone.

Specs: 4 x 12" Celestion® G12T-75 drivers, 13-ply birch construction, 300 Watts. Weight 97 lbs. Size 30" H x 30" W x 15" D.

Features & specifications subject to change without notice.

# 1200s

incredible 1200 Watts of raw power

## 1200s Bass Amplifier:

An incredible 1200 Watts of power in a two-space rack mountable head. Two-channel, master volume operation and the ability to mix-in real tube distortion when your bass sound requires a CUTTING EDGE.

Specs: 1200 Watts, tube preamp, footswitchable ten-band graphic EQ, High/Low split band compression, EFX Loop, high and low enhance, mid notch, tuner out, balanced line out. Three-button footswitch included and more!

Weight: 32 lbs. Size: 3.5" H x 19" W x 16" D.

# 300 T

300 Watt all tube bass amplifier

## 300 T Bass Amplifier:

All the same features and flexibility of the preamp found on the 1200s, backed by an all tube 300 Watt power amp. If the gig calls for fat, toneful grinding bass that unmistakably says "ALL TUBE POWER," then this is the amp that can deliver the goods. Unique current feedback design allows the use of vented baffle enclosures such as the SUNN 410H.

Specs: 300 Watt tube head, two-channel operation, three-button footswitch included. Weight 75 lbs. Size 11" H x 26" W x 16" D.

Sunn electronics are covered by a limited 5-year transferable warranty (U.S. and Canada only). See back of warranty tag for details.

## 215 Bass Enclosure:

For moving huge volumes of bass-saturated air, this is the cabinet to rely on. Casters are included to make load-in a breeze.

Specs: 2 x 15" Eminence drivers, 300 Watts, 8 Ohm, 13-ply birch construction.  
Weight 87 lbs. Size 41" H x 25.5" W x 17" D.

## 410H Bass Enclosure:

The tight, punchy sound of today's bass in a compact, high performance enclosure. It's stackable for convenience and front-ported for extra gut-shaking bottom.

Specs: 4 x 10" Eminence drivers, 300 Watts, piezo high frequency horn, 8 Ohm, "L" pad HF horn control, 13-ply birch construction.  
Weight 97 lbs. Size 27.5" H x 25.5" W x 17" D.
