GUITAR AMPLIFIER

model **G15**

**OWNER'S MANUAL**

Thanks for choosing TranZamp! Now that you have purchased this quality guitar amplifier, we are confident that after you have read through this manual you will be impressed with the versatility and tone.

TranZamp amplifiers are a product proudly designed and manufactured by Genz Benz and have been geared for incredible output and tone.

**GENZ-BENZ**

## FEATURES

**INPUT** - Standard 1/4" input. The input circuitry is designed to provide the best response from all current instrument pick-ups available. The great tone of the TranZamp starts here!

**CHANNEL GAIN** - This control adjusts the amount of gain for the CLEAN and DRIVE channels. When used as the DRIVE channel gain control, turning the knob clockwise will produce drastic textures of overdrive and sustain.

**CHANNEL SELECTION SWITCH** - This switch selects between the CLEAN or DRIVE channels. Use this switch in conjunction with the channel gain and master controls to produce a wide variety of exceptional tone.

**EQUALIZATION** - The TranZamp design utilizes a wide range 3-band EQ network which is ideal for a variety of music styles. The response of the preamp is "flat" when all EQ controls are set to the "center" position.

**MASTER VOLUME** - Controls the preamp volume to the power amp. Use this control in conjunction with the CHANNEL GAIN and CHANNEL SELECTION SWITCH.

**CD INPUT** - This jack is provided for the input of a CD player in order to practice to your favorite songs.

**HEADPHONE JACK** - Connect standard headphones (8-600 ohms impedance) here for silent rehearsals. The internal speaker is disconnected when the headphones are plugged in.

## REAR PANEL

**POWER CORD** - Always plug the TranZamp into a grounded 120 volt, 60 cycle power outlet . Never disable the ground connection of the power cord.

## SPEAKER ENCLOSURE

**CABINETRY** - The G15 is a durable, solid cabinet that will withstand the beating of back and forth trips to lessons or practice sessions. The solid back design of the cabinet helps deliver the high output punch.

**G10 LOUDSPEAKER** - Our 6.5" speaker has been specifically designed to reproduce the versatile tone of the TranZamp design.
